#### **RESULTS OF OPERATIONS**

##### **Investment income**

A breakdown of investment income for the three months ended December 31, 2021 and 2020 is presented below (\$ in millions):

	Three months ended Dec. 31,	
	2021	2020
Interest income on debt securities		
Cash interest	\$ 5.3	\$ 4.4
PIK interest	0.1	0.3
Prepayment premiums	—	0.1
Net accretion of discounts and other fees	0.6	0.3
Total interest on debt securities	6.0	5.1
Dividend income	1.7	2.2
Other income and fees	0.4	0.2
Total investment income	\$ 8.1	\$ 7.5

The increase in investment income between periods was primarily due to an increase in interest income driven by the expansion of the Company's overall investment portfolio, as well as higher other income related to one-time fees such as arranger fees or structuring fees. This increase was partially offset by a reduction in dividend income due to the sale of C&K Markets in December 2020.

A breakdown of investment income for the years ended December 31, 2021 and 2020 is presented below (\$ in millions):

	Years ended Dec. 31,	
	2021	2020
Interest income on debt securities		
Cash interest	\$ 20.9	\$ 17.2
PIK interest	0.5	0.9
Prepayment premiums	0.5	0.1
Net accretion of discounts and other fees	1.6	0.9
Total interest on debt securities	23.5	19.1
Dividend income	6.6	10.0
Other income and fees	1.3	0.7
Total investment income	\$ 31.4	\$ 29.8

The increase in investment income between periods was primarily due to an increase in interest income driven by the expansion of the Company's overall investment portfolio, as well as higher other income related to one-time fees such as arranger fees or structuring fees. This increase was partially offset by a reduction in dividend income due to the sale of C&K Markets in December 2020.

### Expenses

A breakdown of expenses for the three months ended December 31, 2021 and 2020 is presented below (\$ in millions):

	Three months ended Dec. 31,	
	2021	2020
Expenses		
Interest and fees on borrowings	\$ 3.0	\$ 3.0
Base management fees	1.1	0.9
Other expenses	0.9	0.9
Administrator expenses	0.2	0.3
Total expenses	5.2	5.1
Management fee waiver	—	(0.9)
Total expenses, net of fee waivers	5.2	4.2
Income tax provision, excise and other taxes	0.1	—
Total expenses after taxes	\$ 5.3	\$ 4.2

The increase in expenses (net of fee waivers) from 2020 to 2021 was primarily due to a reduction in management fee waiver during the three months ended December 31, 2021.

A breakdown of expenses for the years ended December 31, 2021 and 2020 is presented below (\$ in millions):

	Years ended Dec. 31,	
	2021	2020
Expenses		
Interest and fees on borrowings	\$ 11.6	\$ 12.3
Base management fees	4.0	3.7
Incentive fees	—	(0.4)
Other expenses	3.7	3.9
Administrator expenses	0.9	1.1
Total expenses	20.2	20.6
Management fee waiver	(0.9)	(1.8)
Total expenses, net of fee waivers	19.3	18.8
Income tax provision, excise and other taxes	0.1	0.1
Total expenses after taxes	\$ 19.4	\$ 18.9

The increase in expenses (net of fee waivers) from 2020 to 2021 was primarily due to a reduction in management fees waiver during the year ended December 31, 2021, and the reversal of incentive fees during the prior year. The increase was partially offset by lower interest and fees on our borrowings in 2021 primarily driven by a one-time accelerated amortization expense incurred in the prior year and a reduction in borrowing costs during the current year due to refinancing of the Company's unsecured notes outstanding. Additionally, administrative and other expenses were lower during the year ended December 31, 2021.

### **Net investment income**

Net investment income totaled \$2.8 million and \$3.3 million for the three months ended December 31, 2021 and 2020, respectively, or \$0.09 and \$0.11 per share, respectively, based upon 30,106,552 and 30,109,384 weighted average common shares outstanding, respectively.

The decrease in net investment income for the three month periods is primarily driven by an increase in base management fees coupled with a reduction in management fee waiver during the three months ended December 31, 2021. This was partially offset by an increase in investment income in 2021 due to expansion of the portfolio and higher one-time fees such as arranger fees or structuring fees.

Net investment income totaled \$12.0 million and \$10.8 million for the years ended December 31, 2021 and 2020, respectively, or \$0.40 and \$0.35 per share, respectively, based upon 30,108,671 and 31,341,857 weighted average common shares outstanding, respectively.

The increase in net investment income for the respective years is primarily attributable to a increase in interest income earned on debt securities in the portfolio due to expansion of the portfolio and higher other income related to one-time fees such as arranger fees or structuring fees, as well as lower interest and fees on our borrowings. The increase was partially offset by reduced dividend income due to the sale of C&K Markets in December 2020, as well as a reduction in management fee waiver during the year ended December 31, 2021.

### **Net realized gains and losses, net of income tax provision**

For the three months ended December 31, 2021, the Company recognized a net realized gain of \$3.1 million, primarily related to the sale of its equity holdings in Sciens Building Solutions, LLC and Urology Management Associates, LLC. These gains were partially offset by an \$0.8 million realized loss on the extinguishment of debt related to the redemption of our 2023 Notes in December 2021.

For the three months ended December 31, 2020, the Company recognized a net realized gain on portfolio investments of \$1.6 million, primarily related to a \$3.8 million realized gain in connection with the sale of its equity holdings in C&K Market, Inc., partially offset by a \$2.4 million realized loss in the restructuring of smarTours, LLC.

For the year ended December 31, 2021, the Company recognized a net realized loss of \$1.0 million, primarily related to the \$1.9 million realized loss in connection with the write-off of its equity holdings in Alex Toys, LLC and the \$1.3 million realized loss on extinguishment of debt related to the redemption of our 6.75% Senior Notes due 2022 (the "2022 Notes") and 2023 Notes, partially offset by realized gains of \$3.3 million resulting from the sale of its equity positions in Sciens Building Solutions, LLC and Urology Management Associates, LLC. For the year ended December 31, 2020, the Company recognized a net realized loss on portfolio investments of \$44.2 million, primarily related to the \$17.5 million realized loss from the restructuring of OEM Group, LLC, the \$17.3 million loss from the disposition of our holdings in Holland Intermediate Acquisition Corp and the \$5.3 million loss from the restructuring of the Company's investment in Allied Wireline Services, partially offset by a realized gain of \$3.8 million from the sale of its equity positions in C&K Market, Inc.

### **Net change in unrealized appreciation (depreciation) on investments**

For the three months ended December 31, 2021 and 2020, the Company's investment portfolio had a net change in unrealized depreciation of \$8.1 million and \$4.7 million, respectively. For the years ended December 31, 2021 and 2020, the Company's investment portfolio had a net change in unrealized appreciation (depreciation) of \$6.5 million and (\$3.5) million, respectively.

The net change in unrealized depreciation on investments was primarily the result of the performance of certain portfolio investments, including certain controlled investments, partially offset by the reversal of prior period unrealized depreciation upon the realization of certain investments.

### **Change in net assets resulting from operations**

The net (decrease) increase in net assets resulting from operations totaled (\$2.0) million and \$0.1 million, or (\$0.07) and \$0.00 per share based upon 30,106,552 and 30,109,384 weighted average common shares outstanding, for the three months ended December 31, 2021 and 2020, respectively.

The net increase (decrease) in net assets resulting from operations totaled \$17.7 million and (\$36.7) million, or \$0.59 and (\$1.17) per share based upon 30,108,671 and 31,341,857 weighted average common shares outstanding, for the years ended December 31, 2021 and 2020, respectively.

The increase in net assets resulting from operations for the respective periods is primarily due to higher interest income as a result of portfolio expansion, significant unrealized gains recognized during the current year, and a significant reduction in realized losses during the year ended December 31, 2021.

## **RECENT DEVELOPMENTS**

From January 1, 2022 through March 3, 2022, First Eagle Alternative Credit BDC made follow-on investments, including revolver and delayed draw fundings, totaling \$3.7 million at a combined weighted average yield based upon cost at time of investment of 6.5%.

On March 1, 2022, the Board declared a dividend of \$0.10 per share payable on March 31, 2022 to stockholders of record at the close of business on March 15, 2022.

The Adviser is actively working to reduce the Company's cost of the remainder of its debt liabilities, including working with the Company's joint venture, Logan JV, on other potential financing structures. As a result of the conflict between Russia and Ukraine and the varying involvement of the United States and other NATO countries, this has resulted in volatility in the capital markets and therefore delayed such objectives as of date. Although the Adviser anticipates reducing the Company's cost of debt liabilities in the short term, there is no guarantee that such reduction will occur in the short term or at all.
